Dual-use eye shadow
a cotton swab box
Open The Box
Turn The Gear
Cotton Swab Appear
Clip It
Use It
Dual-use eye shadow a cotton swab box let the cotton swabs can keep clean and not waste the space in the box by the gear device under the eye shadow. We just need to turn the exposed gear, and it can drive the gear which cotton swabs on it. Let the clear cotton swabs turn to the export for cotton swabs next to the eye shadow, for us easy to use.
Another feature of this product is the new clip. There is a ditch front the clip can coordinate with the ditch on the top of the cotton swabs.And push the elastic to the right seat, let it can' t move. It can makes us don' t use many power to close the cotton swabs.
On the other advantage, we used to find the small bag or small bottomto keep clean of the cotton swabs when we put the cotton swabs in thebag. And it is waste the space to put a box in the bag. So we are binding the cotton swabs with our Dual-use eye shadow a cotton swab box. We just need to throw out the dirty, used cotton swabs and slide the gear beside the box then we can get a new, clean cotton swab head.
The outside is decorated by simple and neat lines to show the modern. White appearance give people clean and fresh feeling that is consort use for women.The product is convenient, clean, sanitary, time and space-saving.
