教學綱要

- 一、教學目標(Objective) The goal is to improve the students' listening and speaking ability, in general, the program is to equip students with a second language before they graduate, so as they will be able to find jobs with less difficulty.
- 二、先修科目(Pre Course) The intermediate English courses with basic grammar and minimum sentence-making ability.
- 三、教材內容(Outline) World Link Video Course is a teaching program for students to develop English fluency. The authors have made several short movies that include conversations on daily lives of six young people from different countries. The talks are about studying, living and working in New York City.
- 四、教學方式(Teaching Method) Watching DVD is the perfect way which can attract students' attention. A test after each lesson is necessary, so as to help students concentrate learning.
- 五、參考書目(Reference) The second part of World Link is for reference since the Global Viewpoint after each unit is closely related to the previous lesson.
I strongly recommend to study Global Viewpoint as the reference.
