

Pushpin Pen

Normally, the pushpin is available in the market with the plastic box only, as a result, without any protective measures some people might get sick or injured when using it carelessly. The new design of this product is to incorporate a way for the pushpin with better packaging, so it doesn't change the use. The design is simple but modern and most importantly, it makes the using process more secure and reduce the fear and anxiety of the user. As long as the pen will be pushed out of the pushpin, so that the pen can be a nail on the wall without convenient.
