

Humidity hanger

此項發明以環保為宗旨，將智慧科技融入生活，為您帶來便利。智慧衣架 Humidity Hanger 是為了解決傳統衣架的問題，Humidity Hanger 可以感應衣服上的濕度，幫助人們在衣服完全乾透前，知道 Humidity Hanger 使用太陽能充電供電，沒有電池，所以沒有污染。

If you want to know the color change in the future, you can not distinguish your clothes which are dry or not. Humidity Hanger is made to resolve this problem. Humidity Hanger could show the humidity percentage of the cloth clearly. It could help people to avoid using too much of water. Humidity Hanger used the converter of green with solar panel, no battery, no burden on the earth.

Humidity hanger above the installation of solar panels can absorb solar energy into electricity and stored electricity can use on cloudy Humidity hanger

Linked to place a small portion of the rubber material can be placed in a larger size clothes rack, and do not worry about Humidity hanger hook opening is too small that can not be loaded.

Below the crossbar can hanging parts and clothes.

The side of clothes humidity percentage, the color of the words will transform, when the water color is blue, when completely dry, the digital color will turn to green.
